

Mr. Kirk Myers
Myers Plumbing and Heating, Inc.
16825 Industrial Parkway
Lansing, MI 48906

Kirk,

We wanted to take this opportunity to acknowledge the outstanding performance of the Myers Plumbing and Heating team on the Mechanical Upgrade project for St. Patrick Parish in Portland. This was a challenging project as the entire mechanical system was renovated in and around occupied buildings with a tight schedule duration. The efforts of Matt Merrifield, Andrew Hay, Mike Kline, and Chad Nichols allowed activities to take place with little interruption to the building occupants.

From the beginning of the project through close-out, Myers attention to detail, quality of installations and the ability to coordinate with all the contractors on the project lead to on time completion of the project. As with any renovation project, we experienced many surprises and unforeseen conditions but when these challenges emerged, the Myers Team was the first to come to the table with solutions. When the Project Team provided direction, Myers was able to react and overcome obstacles to keep the project on track and complete the project on time.

The St Patrick project and other completed projects by our companies have been successful and we look forward to future opportunities with your firm. Furthermore, we would not hesitate to recommend Myers to other clients and contractors.

We sincerely appreciate your efforts on this project.
