

MPMCA Contractor of the Year

Kirk D. Myers

Myers Plumbing & Heating, Inc.

Kirk Myers, owner of Myers Plumbing & Heating, Inc., was awarded the Michigan Plumbing & Mechanical Contractors Association's (MPMCA) Contractor of the Year Award at the MPMCA Summer Conference & Annual Meeting in Traverse City on August 15, 2009.

Myers Plumbing & Heating has been serving the Mid-Michigan area for over 20 years. Founded in 1987 by Kirk and Robin Myers, the company has grown to over thirty employees and offers a wide

range of services from new construction plan and spec to design/build services.

Myers also offers complete HVAC service and sales from large industrial plants to small residential systems.

As well as being the company's owner, President and Senior Chief Estimator, Kirk has a Master Plumber License, Journeyman Plumber License, Boiler Installation License, Medical Gas License, as well as Backflow Prevention and Testing Certification.

Kirk is the Secretary/Treasurer of the Mid-Michigan Mechanical Contractors Association and has held that position for four years. Kirk has been instrumental in the association's leadership transition in 2008, as well as in the decision making process of making the association more effective and beneficial to its members. His "no nonsense approach" has been a great asset in the association's budget restructuring during these difficult economic times.

Kirk also serves on the UA Local 333 JATC Committee, as a Supervisor and Judge for the SkillsUSA Residential Plumbing State Contest, and as a Delta Charter Township Plumbing and Mechanical Appeals Board Member.

In 2008, Myers Plumbing & Heating, was a Silver Donor for the Dewitt Community Build. This organization assisted in building a handi-cap accessible home for the Courter Family, a family of 6, where the father, Ted Courter, is a quadriplegic from a 2005 accident.

In addition to the Dewitt Community Build donation, Kirk and his company have made donations to the Habitat for Humanity, as well as the Capital

Area Humane Society, where they donated HVAC equipment at cost in order for the animals to have a more comfortable environment.

Kirk also participated in the "Green Trailer" coming to the Lansing area in September 2008. The HVAC Mobile Green Classroom (AKA the Green Trailer) showcases the latest in environmentally friendly technologies and it creates awareness in the community of these emerging technologies and how our contractors and union members are on the leading edge in training, installation and service of these new systems.

Kirk Myers has been a very valuable board member for 3MCA and that he is known to be the "go-to guy" as he get things done in a way that is always a benefit to the association and the community.
